Ford Racing Parts Limited Warranty

1. Introduction

Ford Racing Parts and your authorized distributor or installer thank you for selecting one of our quality products. Our commitment to you and your satisfaction with our performance parts is important to us. This document explains the Limited Warranty coverages that apply to your warranted Ford Racing Part(s).

When you need warranty service for a warranted Ford Racing Part, you should contact the Ford Racing Parts Techline at (800) FORD-788 for assistance. This Limited Warranty is provided by Ford Motor Company, acting through its Ford Racing Parts business, Customer Relationship Center, P.O. Box 6248, Dearborn, MI 48121.

Please note that certain Ford Racing Parts may not be covered by this Limited Warranty. Coverage varies by part. This warranty information describes the types of warranty coverage available. To determine the specific warranty coverage, if any, for a particular Ford Racing Part, consult the Coverage Table in the Appendix.

2. Important Information You Should Know

IF YOU NEED ASSISTANCE: If you have questions or concerns regarding a warranted Ford Racing Part or need assistance locating a service facility, please contact the Ford Racing Parts Techline at (800) FORD-788.

KNOW WHEN YOUR WARRANTY BEGINS: Your Warranty Start Date is the date you purchased the Ford Racing Part. There are two exceptions: (a) **Parts requiring professional installation.** If Ford Racing Parts designates the part in the Coverage Table as requiring professional installation by a qualified installer as a condition of coverage, and that installation is completed within 90 days after purchase, your Warranty Start Date is the installation date of the Ford Racing Part. (b) **California purchases on or after July 1, 2023.** If the part was sold from a California retailer and/or to a California resident, your Warranty Start Date will be no earlier than the date the part was delivered to you. In each case, you must be able to document the later date. If you cannot, the date of purchase applies.

Your Warranty Start Date determines only when coverage for the Ford Racing Part begins. This Limited Warranty is separate from your Ford New Vehicle Limited Warranty and does not extend, renew, or reinstate it or any other vehicle warranty.

CHECK YOUR PART: You should carefully inspect your Ford Racing Part upon receipt and before installation for any damage or apparent defects. If you discover any damage or defect, notify the seller or distributor immediately.

MAINTAIN YOUR VEHICLE PROPERLY: While this warranty applies to a specific Ford Racing Part, proper maintenance of your vehicle, as outlined in your vehicle's Owner's Manual and any instructions provided with the performance part, is essential. Failure to properly maintain your vehicle or the performance part could impact the part's performance and may result in a failure that is not covered by this Limited Warranty. Keep accurate records and receipts for all maintenance.

WHO PAYS FOR WARRANTY REPAIRS? If a warranted Ford Racing Part fails due to a manufacturing defect in materials or workmanship during the applicable warranty period, Ford Racing Parts will, at its option, repair or replace the defective part without charge for the part itself.

The cost of labor to remove the defective part and install the replacement part and any associated repairs is your sole responsibility. However, if the vehicle is still covered under its original Ford New Vehicle Limited Warranty *and* the repair is performed by an authorized Ford Dealership, Ford will also cover the cost of that labor. In all other circumstances, including repairs performed by any facility other than a Ford Dealership, or repairs performed after the vehicle's original New Vehicle Limited Warranty has expired, labor costs are not covered by this Limited Warranty, except where required by law.

Some states and/or local governments may require a tax on a portion of warranty repairs. Where applicable law allows, the tax must be paid by you, the owner of the part or vehicle.

GEOGRAPHIC EXTENT OF WARRANTY: This warranty is limited to parts and vehicles utilized in the United States.

3. The Ford Racing Parts Limited Warranty

LIMITATIONS AND DISCLAIMERS: All warranties described in this document are subject to the following limitations and disclaimers. Please read them carefully.

Ford Racing Parts are performance components. Installing them may change how other systems on your vehicle perform and may require additional modifications for proper function and safe operation. It is your responsibility to determine whether a Ford Racing Part is appropriate for the intended vehicle and use. Any damage to the vehicle or its other systems resulting from the installation or use of a Ford Racing Part is not covered by this Limited Warranty and is your sole responsibility. See Section 5.

The warranties described in this document are **the only express warranties** applicable to your Ford Racing Part(s). Ford Racing Parts and Ford Motor Company do not assume or authorize anyone to assume for them any other obligation or liability in connection with

your part(s) or these warranties. No person, including Ford employees, dealers, distributors, or installers, may modify or waive any part of these warranties.

Ford Racing Parts and Ford Motor Company reserve the right to make changes or additions to parts sold at any time without incurring any obligation to make the same or similar changes or additions to parts previously manufactured or sold. Any such modification will not alter the warranty conditions applicable to parts sold at the time of sale.

To the extent that a part sold by Ford Racing Parts comes with a warranty from a different manufacturer, this Ford Racing Parts warranty does not apply, and Ford Racing Parts will direct you to the original manufacturer to obtain warranty coverage. This may include parts for which the original manufacturer's warranty provides shorter or longer coverage than this Limited Warranty would otherwise provide. To determine which parts come with a warranty from the original manufacturer, please contact Ford Racing Parts at (800) FORD-788.

Impact on Vehicle Warranty: The installation and use of certain Ford Racing Parts and components, whether in combination with other aftermarket parts or not, and any associated vehicle modifications may reduce or void the coverage of your Ford New Vehicle Limited Warranty for certain vehicle components, including through the installation or use of performance-enhancing software or “flashes” that alter the vehicle's original calibration, but only if the Ford Racing Part, its installation, or any related modification or calibration caused or contributed to the failure.

Installation and Vehicle Suitability: Vehicle damage or personal injury caused by your failure to modify the vehicle properly as necessary for use of one or more Ford Racing Parts and components is not covered by this Limited Warranty and is your sole responsibility.

This Limited Warranty covers only the Ford Racing Part itself and does not extend, reinstate, or create new coverage under the Ford New Vehicle Limited Warranty for the vehicle or any of its components except that the remaining term of the vehicle’s New Vehicle Limited Warranty Bumper to Bumper Coverage (3 years / 36,000 miles, whichever occurs first), as described in Section 4, may be used solely to calculate the duration of this Limited Warranty.

Racing and Competition Use: This is NOT a warranty for parts used in racing or competition. Use of the vehicle in racing, competition, or any timed or competitive driving event is at your own risk and voids this Limited Warranty in its entirety. See "Events That Void This Limited Warranty" below.

You may have some implied warranties. For example, you may have an implied warranty of merchantability (that the Ford Racing Part is reasonably fit for the general purpose for which it was sold) or an implied warranty of fitness for a particular purpose (that the Ford Racing Part is suitable for your special purpose), if a special purpose was specifically disclosed to Ford Racing Parts itself, not merely to a distributor, installer, or dealer, before

your purchase, and Ford Racing Parts itself, not merely the distributor, installer, or dealer, told you the part would be suitable for that purpose.

LIMITATION ON IMPLIED WARRANTIES: ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE APPLICABLE TO A FORD RACING PART IS LIMITED IN DURATION TO THE PERIOD OF THE WRITTEN LIMITED WARRANTY APPLICABLE TO THAT PART. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This Limited Warranty does not cover use in racing or competition, and Ford Racing Parts makes no representation that any Ford Racing Part is suitable for racing or competition use unless expressly stated in the part's written specifications.

PARTS SOLD WITHOUT WARRANTY: FORD RACING PARTS DESIGNATED AS HAVING NO WARRANTY ARE SOLD "AS IS," WITHOUT ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE EXTENT PERMITTED BY LAW. Some states do not allow the exclusion of implied warranties, so this exclusion may not apply to you.

Exclusion of Damages: EXCEPT AS PROVIDED IN THIS WARRANTY AND TO THE EXTENT PERMITTED BY LAW, FORD RACING PARTS AND FORD MOTOR COMPANY ARE NOT RESPONSIBLE FOR ANY TIME FOR WHICH YOU MAY LOSE THE USE OF YOUR VEHICLE OR THE FORD RACING PART, ANY INCONVENIENCE YOU MIGHT BE CAUSED, THE LOSS OF YOUR TRANSPORTATION OR ANY PART THEREOF, OR ANY OTHER INCIDENTAL, CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES YOU MAY HAVE. This exclusion of damages includes, but is not limited to, loss of revenue, loss of actual or anticipated profits, loss of use of money, loss of anticipated savings, loss of business, loss of opportunity, loss of goodwill, loss of reputation, loss of earnings, rental vehicle expenses, towing costs, storage costs, or any other loss or damage howsoever caused, including the replacement of the vehicle on or in which the Ford Racing Part is installed or other property. This Limited Warranty and all questions regarding its enforceability and interpretation are governed by the law of the state in which you purchased the Ford Racing Part. The above limitations or exclusions may not apply in some states. This warranty gives you specific legal rights, and you may also have other rights that vary by state.

You may not bring any warranty-related claim as a class representative, a private attorney general, a member of a class of claimants, or in any other representative capacity. This class-action waiver does not apply where prohibited by applicable law.

4. What is Covered?

Subject to the limitations in this warranty, Ford Racing Parts provides a Limited Warranty on select new Ford Racing Parts against defects in factory-supplied materials or workmanship.

To determine if a specific Ford Racing Part is covered by the General Limited Warranty, a Specific Limited Warranty, or no warranty, consult the Coverage Table in the Appendix to this document.

General Limited Warranty Coverage: Most warranted Ford Racing Parts will be warranted for **24 months/unlimited mileage** from the Warranty Start Date, or the remainder of your vehicle's New Vehicle Limited Warranty Bumper to Bumper Coverage (3 years / 36,000 miles), whichever provides the greater benefit, as determined at the time of the claim.

If your vehicle's 3-year / 36,000-mile New Vehicle Limited Warranty Bumper to Bumper Coverage has already expired, or if the Ford Racing Part is not installed on a Ford vehicle covered by a Ford New Vehicle Limited Warranty, coverage is determined solely by the 24 months/unlimited mileage provision.

Specific Limited Warranty Coverage or No Coverage: Certain Ford Racing Parts are covered by a Specific Limited Warranty with a duration or terms different from the General Limited Warranty. Examples include but are not limited to superchargers and wheels. Certain other parts such as tools, brake pads, bushings, and oil filters have no warranty. Parts that the Coverage Table lists as covered for the remainder of the Bumper to Bumper Coverage, such as superchargers, do not receive 24 months/unlimited mileage coverage and are not covered after the vehicle's Bumper to Bumper Coverage expires.

Under the terms of the applicable Limited Warranty, if a covered part fails due to a manufacturing defect during the warranty period, Ford Racing Parts will, at its option and sole discretion, repair, replace (with new, remanufactured, or factory-refurbished components), or adjust the defective part. A part replaced by Ford Racing Parts receives the remainder of the original part's Limited Warranty coverage. Repair, replacement, or adjustment as described in this Limited Warranty is your sole and exclusive remedy. If Ford Racing Parts is unable to repair or replace the defective part after a reasonable number of attempts, Ford Racing Parts will refund the purchase price of the part. These remedies shall not be deemed to have failed of their essential purpose so long as Ford Racing Parts is willing and able to provide them within a reasonable time.

Transfer of Coverage: This Limited Warranty is transferable. Coverage applies to the original purchaser and to any subsequent owner of the warranted Ford Racing Part, including a subsequent owner of the vehicle on which the part is installed, for the remainder of the applicable warranty period. The Warranty Start Date and warranty period do not change upon transfer. A subsequent owner may establish the Warranty Start Date with the original

proof of purchase or with other reliable documentation, such as a Ford Racing Parts warranty registration, an installation repair order, or Ford dealer records. If the Warranty Start Date cannot be reasonably established, Ford Racing Parts will use the earliest date supported by available records.

5. What is Not Covered

This Limited Warranty is subject to the exclusions and limitations described below. The causes listed under "Causes of Damage That Are Not Covered" are excluded where Ford Racing Parts determines, in its reasonable judgment, that the excluded cause contributed to or caused the specific failure at issue. The items listed under "Items and Costs Not Covered" are not covered regardless of cause. The events listed under "Events That Void This Limited Warranty" apply whether or not the event caused the failure at issue.

Causes of Damage That Are Not Covered. The following are excluded only where the listed cause contributed to or caused the specific failure at issue:

- Damage Caused By:
    - Accidents, collision, or objects striking the part or vehicle.
    - Theft, vandalism, or riot.
    - Fire or explosion.
    - Using contaminated or improper fluids (if applicable to the part).
    - Customer-applied chemicals or accidental spills.
    - Environmental factors such as acid rain, airborne fallout (chemicals, tree sap), stones, road hazards, windstorm, lightning, floods, earthquakes, or other natural disasters.
    - Lack of proper maintenance or failure to follow recommended maintenance schedule intervals for the vehicle or the performance part.
    - Improper storage or handling of the part or vehicle.
    - Damage due to engine overheating or oil starvation (if applicable to the part, e.g., crate engines).
    - Damage caused by foreign objects dropped or drawn into components (e.g., cylinders or crankcase, if applicable to the part).
- Damage Caused by Installation, Alteration, or Modification:
    - Improper or incomplete installation of the Ford Racing Part, including failure to follow installation instructions or use required tools.
    - Installation or repair of a part that the Coverage Table designates as requiring professional installation, if performed by someone other than a qualified installer. A qualified installer is any authorized Ford dealer, Shelby American, Inc., or any automotive service technician certified by the National Institute for Automotive Service Excellence (ASE) or holding a Red Seal endorsement.

Ford Racing Parts does not require installation by a Ford dealer or any other particular business as a condition of coverage.
    - Tampering, alteration, or modification of the Ford Racing Part itself after purchase.
    - Damage caused to the Ford Racing Part by the installation or use of non-Ford or unauthorized aftermarket parts, accessories, or software on the vehicle, including wheels and tires of size, type, or compound not specified for the vehicle.
    - Damage caused to the Ford Racing Part by necessary vehicle modifications that were improperly performed or were insufficient for the proper function and safe operation of the vehicle with the performance part installed.
    - Damage caused by calibration or tuning of the vehicle's powertrain control module (PCM) or other systems that are not authorized or specified by Ford Racing Parts for use with the specific performance part. This includes damage resulting from improper tuning or calibration, including "flashes".
    - Damage caused by the removal, modification, disabling, or tampering with any federal- or state-required emissions control device or component (including but not limited to catalytic converters, oxygen sensors, EGR systems, or evaporative emissions systems), whether performed in connection with the installation of a Ford Racing Part or otherwise. Such removal or modification may be illegal under state or federal law, including the Clean Air Act, and any resulting damage to the Ford Racing Part or the vehicle is your sole responsibility and is not covered under this Limited Warranty.
- Damage Caused by Misuse or Abuse, including, but not limited to:
    - Abnormal operation, misuse, or neglect of the part or the vehicle the part is installed on.
    - Overloading the vehicle or exceeding the part's design limits.
    - Driving over curbs, using the vehicle as a stationary power source, or other similar actions.
    - Use of fuel with an octane rating lower than the minimum octane rating specified for the part.
- Damage caused by improper fuel. Use of any fuel for which the vehicle was not designed can impair the emissions control system, cause loss of vehicle performance, and cause damage to the engine. Accordingly, do not use:
    - Diesel fuel;
    - Fuels containing kerosene or paraffin;
    - Fuel containing more than 15% ethanol (E15) or E85 fuel;
    - Fuels containing methanol;

    - Fuels containing metallic-based additives, including manganese-based compounds such as methylcyclopentadienyl manganese tricarbonyl (MMT), which impair engine performance and affect the emissions control system;
    - Aftermarket octane boosters, octane enhancers, or other aftermarket fuel additives not approved by Ford Racing Parts for use with the specific part; or
    - Leaded fuel. Use of leaded fuel is prohibited by law.
- Damage caused by the use of unauthorized power adders (e.g., superchargers, turbochargers, nitrous oxide), if the part is not designed or warranted for use with such adders.
- Damage to the Vehicle. Damage to the vehicle or its other systems resulting from the installation, use, or failure of a Ford Racing Part, as described in the Limited Warranty section above.

Items and Costs Not Covered. This Limited Warranty does not cover the following, regardless of cause:

- Parts replaced or labor charges incurred as part of normal vehicle maintenance, except for the replacement of a warranted part failing due to a manufacturing defect.
- Parts Used in Unintended Applications:
    - Ford Racing Parts installed on vehicles for which they were not designed or intended.
    - Ford Racing Parts used in marine, motorcycle, or other non-vehicle applications.
    - Parts installed in vehicles that are not street legal or certified under federal motor vehicle safety standards and regulations, or vehicles used on public roads if the part is only intended for off-road use as specified by Ford Racing Parts.
- Non-Ford Racing Parts or Genuine Ford replacement parts or accessories which Ford Dealers may sell or install on your Ford vehicle (these are covered, if at all, by their own respective warranties).
- Costs associated with obtaining warranty service, including towing, shipping, rental vehicles, loss of time, inconvenience, or any other economic loss not explicitly covered herein (as detailed in the Exclusion of Damages section).
- Normal Wear and Tear: This Limited Warranty does not cover parts that wear out in normal use, including shocks, bushings, pistons, piston rings, brake pads, clutch discs, filters, spark plugs, and fluids. A part that fails because of a defect in materials or workmanship is covered even if it also shows normal wear.

Events That Void This Limited Warranty. The following voids this Limited Warranty in its entirety, without regard to whether the event caused the failure at issue:

- Racing and Competition Use. After the Ford Racing Part is installed, the vehicle on which it is installed is used in racing, competition, or any timed or competitive driving event, including track events, autocross, drag racing, drifting, and time trials, whether or not the Ford Racing Part was involved in or affected by that use.
- Branded or Salvaged Vehicles. The vehicle has been titled or labeled as branded due to dismantling, rebuilding, reconstructing, salvaging, theft, fire, flood, or junk.
- Total Loss. The vehicle has been determined to be a total loss by an insurance company.
- Odometer Tampering. The vehicle's odometer has been altered, disconnected, or replaced such that actual mileage cannot be determined.

Coverage voided under this paragraph terminates as of the date of the event and is not reinstated by subsequent repair, re-titling, or change of ownership. Voiding this Limited Warranty does not affect any rights you may have under applicable state law that cannot be waived.

6. Owner's Warranty Responsibilities:

As the owner of a Ford Racing Part, you are responsible for the following to ensure proper function and maintain potential warranty coverage:

- Proper Installation: Ensure the Ford Racing Part is installed correctly according to the installation instructions provided and any requirements specified by Ford Racing Parts for warranty coverage.
- Proper Maintenance: Ensure that your vehicle is maintained properly as outlined in your vehicle's Owner's Manual. Additionally, you must perform any specific maintenance required for the Ford Racing Part itself, as detailed in the part's instructions or documentation.
- Proper Use: Use the Ford Racing Part and the vehicle on which it is installed in a manner consistent with its intended purpose and design. Avoid abuse, misuse, or operation under conditions that exceed the part's specifications. Adhere to any specific requirements, such as using the specified fuel octane rating and fuel type.
- Retain Records: It is recommended that you keep accurate records and receipts for the purchase of the Ford Racing Part, its installation (especially if installation by a qualified installer is required for the part), and records of all vehicle and part maintenance performed. You may provide these records if requested for a warranty claim to show proper maintenance.

- Register Your Warranty (Recommended): We recommend registering your purchase and installation at https://www.fordracingparts.com/register/ to help expedite warranty service. Registration is not required to obtain warranty coverage.
- Present Part/Vehicle for Service: If you believe a warranted Ford Racing Part has failed due to a manufacturing defect, you are responsible for presenting the part (or the vehicle with the part installed, if necessary for diagnosis) to an authorized service facility when directed by the Ford Racing Parts Techline.
- Timely Reporting: Report any suspected manufacturing defects with a warranted part promptly to the Ford Racing Parts Techline at (800) FORD-788 as soon as the problem exists, and in any event before the end of the applicable warranty period.
- Understand Exclusions: Familiarize yourself with the What is Not Covered section of this warranty information to understand the conditions and damages that are not covered.
- Understand Vehicle Warranty Impact: Be aware that installing Ford Racing Parts may reduce or void your Ford New Vehicle Limited Warranty coverage for certain components if the part, its installation, or a related modification caused or contributed to a failure, as described above.

7. How to Obtain Warranty Service

If you believe a warranted Ford Racing Part has failed due to a manufacturing defect in materials or workmanship, please follow these steps to obtain warranty service:

1. Contact the Ford Racing Parts Techline: Call the Ford Racing Parts Techline at (800) FORD-788. Explain the issue you are experiencing with the warranted part.

2. Provide Required Information: You must provide the following before a warranty claim can be processed:

- the part number and description;
- the Vehicle Identification Number;
- the date and location of purchase;
- the delivery date of the part (if applicable);
- the date and location of installation and the name of the installing facility;
- the vehicle's current odometer reading;
- a description of the problem;
- PCM/calibration history: whether the vehicle's powertrain control module (PCM) or any related control module has been reprogrammed, recalibrated, reset, or had its diagnostic trouble code history cleared at any time after the Ford Racing Part was installed, and if so, the approximate date and the name of the party who performed that work. If you do not know, state that.

Ford Racing Parts will use the purchase, delivery and installation dates to determine your Warranty Start Date as described above. If you do not provide a documented delivery or installation date, the date of purchase will be used as the Warranty Start Date.

Providing the PCM/calibration history is required for Ford Racing Parts to process your claim. A cleared or reset module history will not by itself result in denial, but Ford Racing Parts may consider the history in determining the cause of failure. Ford Racing Parts may waive this requirement where module history is not relevant to the part or failure at issue.

3. Make the Part Available for Inspection: Ford Racing Parts will bear the cost of any inspection or teardown it requires. Ford Racing Parts may seek reimbursement from you for the reasonable cost of teardown and reassembly only where (a) you or someone acting at your direction cleared, reset, or overwrote module data after the failure occurred, or after Ford Racing Parts requested that the data be preserved, and that data was necessary to determine the cause of failure; or (b) you declined to make the part or vehicle available for inspection as requested. Routine clearing of diagnostic trouble codes in the ordinary course of maintenance or repair, including by a Ford dealer or other service facility, is not a basis for reimbursement under this paragraph. Ford Racing Parts will provide an estimate of any such cost in advance, and you must approve it before that work begins.

4. Authorization Required: You **must** contact the Ford Racing Parts Techline and receive authorization **before** any repair work, including tear-down of the component for inspection, is performed. Repairs performed without prior authorization may not be reimbursed, and Ford Racing Parts may be unable to verify the cause of failure.

5. Service Facility Process: If directed to visit an authorized service facility, the facility must complete the repair or replacement based on a written estimate it provides to Ford Racing Parts and receive approval. Where labor is covered or required by law, Ford Racing Parts bases labor rates on Ford labor time standards for the amount of labor for the repair to the extent allowed by law.

6. Provide Documentation: You may be required to submit copies of specific documents with your warranty claim, such as your purchase receipt, delivery receipt, and installation repair order and date (if applicable). You may also submit vehicle maintenance records.

8. State Warranty Enforcement Laws

Some states have enacted warranty enforcement laws, sometimes called "lemon laws." These laws typically apply to defects or non-conformities in a motor vehicle that substantially impair its use, value, or safety.

This Ford Racing Parts Limited Warranty applies to specific Ford Racing Parts and is separate from your Ford New Vehicle Limited Warranty that applies to your vehicle as a whole. State warranty enforcement laws, including “lemon laws,” generally do not apply to aftermarket parts such as Ford Racing Parts; however, this may vary by state.

To the extent your state law provides rights or remedies that cannot be disclaimed or limited by this warranty, those rights and remedies may apply.

APPENDIX

Coverage Table

Category	Product (as listed)	Warranty years	Warranty miles	Must be Professional Installed
Engine	Crate Engines	2	24,000	No
	Sealed Crate Engines (Racing)	0	0	No
	Air Cleaner/ Oil Filter	0	0	No
	Bearings Crank/Rod/Cam	2	24,000	No
